

Haruna Bah Jibril

Abuja, Nigeria | +234 905 9764 843 | harunbah93@gmail.com

Professional Summary

Full-Stack Developer with 3+ years building scalable e-commerce platforms and payment systems. Experienced in architecting complete web applications from backend APIs to modern frontend interfaces, with recent work in cross-platform development. Skilled in Node.js, React, Next.js, Vue.js, MongoDB, and payment gateway integrations. Seeking to bring independent project experience into a collaborative team environment.

Technical Skills

Backend: Node.js, Express.js, MongoDB, Firebase, REST APIs, JWT Authentication

Frontend: React, Next.js 15, Vue.js 3, TypeScript, HTML5, Tailwind CSS, SCSS, Pinia

Payment Integration: Paystack, Flutterwave, Orange Money, PayDunya, Escrow Systems

Mobile: SwiftUI (iOS - Learning), React Native

Tools & DevOps: Git, GitHub, Vercel, Netlify, Postman, MongoDB Compass, Cloudflare R2

Architecture: Role-based Access Control, Real-time Systems, Monorepo (Turborepo)

Languages: JavaScript (ES6+), TypeScript, Python, C++, Swift (Learning), Go (In Progress)

Professional Experience

Full-Stack Developer (Freelance/Contract)

Jun 2021–Present

Remote and On-site Freelancer

AfriTrade Hub – E-Commerce Platform for Cross-Border Trade | Oct 2024 – Present

- Built full-stack e-commerce platform handling multi-vendor transactions and payment processing
- Developed RESTful API with **50+ endpoints**, **25+ database models**, and role-based access control
- Integrated multiple payment providers (Flutterwave, Paystack, Orange Money) with escrow functionality
- Implemented real-time notification system, wallet transfers, and vendor analytics dashboards
- Created order management system with inventory tracking and review aggregation
- **Tech Stack:** Node.js, Express, MongoDB, Next.js 15, React 19, TypeScript, Cloudflare R2
- **Scale:** Monorepo architecture with Turborepo, comprehensive admin and vendor panels

Kaalis Store – Multi-Vendor Marketplace | Sept 2024 – Present

- Developed marketplace platform with vendor storefronts, product management, and order processing
- Implemented payment gateway integrations (Paystack, PayDunya, Orange Money) with automated payouts
- Built seller analytics dashboard, inventory tracking, and user wallet system
- Created Firebase authentication with two-factor auth and role-based permissions
- **Tech Stack:** Vue.js 3, Node.js, Express, MongoDB, Firebase, Vite, Pinia, Chart.js
- **Scale:** 40+ API routes, 30+ database models, 100+ Vue components

NaijaTalk – Community Platform with Marketplace | Jan 2025 – Present

- Built threaded discussion platform with integrated marketplace and contest features
- Developed user wallet system with tipping functionality and premium subscriptions
- Implemented admin moderation tools, reporting system, and user analytics
- Created authentication flow with email verification and role-based access
- **Tech Stack:** Next.js 15, React 19, Node.js, Express, MongoDB, TypeScript, Tailwind CSS

Additional Projects

- Built public APIs: "Recipe – Food – Nutrition" and "Amazon Product Scraper" published on RapidAPI
- Integrated third-party services: Spotify API, Google Analytics, custom web scrapers
- Developed JWT and Firebase authentication across multiple applications
- Currently learning iOS development with SwiftUI for cross-platform expansion

Web Development Felicitator

January 2023 – October 2023

BigT InfoTech Solutions, Asaba, Delta State

- Trained 13+ students in React, CSS, and JavaScript through project-based learning
- Mentored students in debugging, responsive design, and Git version control
- Guided students through building applications from concept to deployment
- Provided code reviews and continuous feedback on technical assignments

Frontend Web Development Intern

June 2022 – October 2022

FlexiSAF Edusof Limited, Abuja, F.C.T

- Built modular UI components using React, Sass, and Styled-Components
- Collaborated with backend engineers to optimize API performance
- Participated in weekly code reviews and frontend optimization sessions
- Implemented responsive designs and cross-browser compatibility

Education

Bachelor of Science in Applied Mathematics and Computer Science

January 2018

Eastern Mediterranean University – Famagusta, Cyprus

Masters in Information Systems

January 2021

Eastern Mediterranean University – Famagusta, Cyprus

Certifications & Training

Software Engineering program

April 2023 – Jun 2024

ALX-Africa, Nation Centre, Nairobi, Kenya

- Core programming: Python, C, C++, JavaScript | Web development | Team collaboration

CCNA Routing & Switching (Cisco)

Jun 2019

- Network configuration, routing, VLANs, troubleshooting, WAN technologies

Certifications & Training

English (Fluent), French (Basic), Turkish (Basic), Hausa (Native), Fulani (Native), Yoruba (Basic)
